2013 Student Survey Report

Network: Fictitious, Grade K-12 School: Fictitious School Teacher: Fictitious Teacher

What is the purpose of this report?

The TNTP Student Survey elicited students' perceptions of their experience in your classroom. This report provides you with information you can use to reflect upon your classroom practice and take steps to improve.

How to read this report

The percentages within this report refer to the **percentage of students who agreed** with each of the items on the survey. For example, if you received 58% on "We have clear rules for what to do in this class", then 58% of your students said this was "Mostly Yes" or "Yes, Always". Your domain average is the average of questions within one category (domain).

In this classroom...	No, Never	Mostly Not	Maybe/ Some-times	Mostly Yes	Yes, Always
We have clear rules for what to do in this class.	○	○	○	○	○

% of Students Who Agreed by Domain

This is an overview of your performance in each domain compared to the average of teachers in your school and to the average of teachers in your network. This gives you a sense of your overall results.
